

## MOCRA Rating Secretary Report 2024

The MOCRA Racing Committee amended the MOCRA Rating Rule by re-introducing the rating of headsails set flying. (Sails set outside the foretriangle, smaller in area than the largest spinnaker.) A related change was to rate the largest headsail set on the forestay rather than a default area based on foretriangle area.

102 MOCRA Rating Certificates were issued for 2024, compared with 115 in 2023. The certificates were emailed to the boat owners and have been published on the MOCRA Rating website.

Strong feedback has again been received from owners of smaller multihulls racing against the 84ft catamaran 'Allegra' (weight over 30,000kg) in the RORC Caribbean 600 Race that the MOCRA formula is not equitable.

Simon Forbes,

MOCRA Rating Secretary
